

Our DJ is an experienced Youth Dance DJ and knows today's music very well.

All the music must be broadcast safe and meet his very high standards.

Broadcast safe means that there will be no swearing, sexual content, bigotry or other antisocial messages.

No tune will be played until and unless it meets the above standards.

To request a song title for addition to the DJ's playlist, choose Song Requests from the Home Page. If the title meets our standards we will make every attempt to play it.

Song requests must be received one week before the dance in order to get them to our DJ for his consideration.
